BACKGROUND

The Higher Education Equipment Trust Fund (HEETF) was established in 1986 by the General Assembly to provide supplemental funding to upgrade equipment needed for instruction and research. At that time, a large infusion of equipment was needed in a short period of time, and the state could not afford to pay for it directly from operating appropriations. In 1999, the General Assembly removed the requirement for leases from the equipment leasing program, now referred to as the Equipment Program. The State Council of Higher Education for Virginia (SCHEV) shares administrative responsibility for the program with the Virginia College Building Authority (VCBA) and the Department of Treasury.

The financing for the Trust Fund is handled by the Department of the Treasury which serves as staff to the VCBA. The Authority issues revenue bonds with a final maturity of up to seven years. Personal computers and other shorter-lived equipment may be surplussed at three years. The term of the bonds is matched to the useful life of most eligible equipment to maximize the leveraging effect of debt financing. Institutions purchase equipment using their operating funds and are reimbursed by the Trust Fund. The General Assembly appropriates funds to the Treasury Board for the payment of the debt service on the bonds.

While the financing of the Trust Fund is handled by the VCBA and bond counselors, SCHEV recommends how it is to be distributed among institutions based on identified equipment needs. The Council's recommendation is then communicated to the Governor and the General Assembly for consideration in the budget process. The General Assembly makes the final decision on dollar allocations. For the first several years, Trust Fund allocations were based on addressing discipline-specific equipment deficiencies. After these initial allocations, general equipment obsolescence became the focus. Since 1996, the Trust Fund has been used to accomplish the following goals:

- Significantly reduce the amount of obsolete technology and equipment.
- Provide every student with access to an appropriate level of information and technology.
- Establish a statewide network that supports and encourages sharing and cooperation.
- Provide every faculty member with appropriate equipment and training to use technology in support of teaching and learning.
- Support faculty in the introduction of new ways of instruction and learning, provide courses customized to student needs and take advantage of distance-learning opportunities.
- Install high quality, easy-access, network-deliverable student support services, such as transcripts, grades, class scheduling and account balance and payment information.

I. INTRODUCTION

The following procedures for operation of HEETF reflect the necessity to maintain a working relationship between VCBA and the institutions, and to provide state oversight of purchases. State agencies (Department of Accounts, SCHEV, and Treasury) support VCBA, and the procedures incorporate traditional internal controls associated with these agencies.

These procedures do not supplant the Department of General Services Agency Procurement Manual. The primary reason for developing these complementary procedures is to direct requests for payment from the VCBA.

II. PROCESS

Annually, institutions are required to enter into a facilities agreement **or a supplement, as required**, which outlines the terms for involvement in the HEETF. The Facilities Agreement is the contractual agreement between the institution and the VCBA. Article IV Section 4.1 of the Facilities Agreement states that an institution should complete the acquisition and installation of equipment prior to the issuance of each new series of bonds which effectively means by the end of the fiscal year for which ETF funds are allocated. The VCBA coordinates this process. Institutions use SCHEV guidelines (see Attachment A for categories excluded from funding) to create their own authorized Equipment Wish List (see Attachment B for required format) which are then submitted to SCHEV. SCHEV reviews the equipment lists to assure VCBA of their compliance with legislation.

Revisions to an institution's original Wish List may be required during the current fiscal year due to changing business needs, such as new research endeavors, new sponsor research grants, significant price changes and other unforeseen changes. Institutions may amend their original Wish Lists as needed, provided the equipment changes meet the requirements as outlined in this policy but must obtain SCHEV approval before modifying their authorized list. If an institution wishes to purchase additional previously approved items, SCHEV processing will be automatic. However, if the additional items have not been previously approved, a more detailed review may be necessary.

III. GUIDELINES USED TO CREATE AUTHORIZED LISTS

REFERENCE NUMBER – On each of these forms a reference number for the individual item should appear. Its layout is:

	AGENCY #	YEAR #	ITEM #	ALLOCATION #
Digits	3	2	4	1

For example, if William and Mary (Agency 204) purchased equipment in December 2022, with an item number of 4 and an allocation number 1, the reference number should appear as follows: 204122200041.

AGY# (Agency) codes are in Attachment C: **YEAR# is the calendar year in which allocation begins.** ITEM# is the number assigned by the institution on the authorized list of equipment. ALLOCATION# should be coded as "1," unless there is more than one allocation per calendar year.

The reference number is of critical importance. It serves as a cross-reference for SCHEV's authorization records and VCBA's payment process. Requests for reimbursement cannot be made without the reference number appearing on the requisition form. Each reference number must relate

to an identifiable piece of equipment. If a single piece of equipment is ordered in components, each component has the same reference number.

FUNCTIONAL UNIT – A functional unit can be a standalone piece of equipment or an assemblage of instruments, modules and components, which together perform a specific task and remain assembled as a unit. Examples of functional units are oscilloscope with probes, recording spectrophotometer with demountable cell assembly and windows, or a computer with printer.

SPLIT FUNDING – Equipment can be split funded with VCBA paying any percentage of the equipment. Code the Fixed Asset Accounting and Control (FAACS) transaction using the split funding fields.

PAYMENT VOUCHER – Upon receipt and acceptance of the equipment and vendor's invoice, the institution generates a payment voucher. An appointed institution official certifies the property of the request for payment by signing the requisition form. The appointed official is required by Treasury to complete a Trust Signature form with the name and initials of the signee. This form can be found on the Department of Treasury's website.

REQUISITION FORM – The institution completes this document (see Attachment F) including a detailed list of equipment purchased, and submits it to SCHEV for review and approval. Check the SCHEV website for updated forms each year. Institutions must submit copies of the completed requisition forms via email to heetf@schev.edu. Submissions must include a verified digital signature on Adobe PDF. Treasury will not process requisitions without a verified signature from the Agency. Although it is not required to submit other supporting documents (e.g., voucher/purchase order, vendor's invoice, etc.), this information should be retained in your files for verification purposes. If problems develop with this streamlined process, it may be necessary to return to the more detailed submission package. A change could be made on an institution-by- institution basis.

TAGS – All equipment purchased using funding from the VCBA requires an inventory tag. In an instance where there are many components that work together to create a functional unit, tag the most expensive piece of equipment. For example, computer monitors and keyboards costing less than \$200 need not be separately tagged but the CPU must be tagged. Similarly, when several pieces of equipment are used together to form a single functioning unit (e.g., electronic classroom) only the largest few pieces of equipment should be tagged.

FREIGHT CHARGES – These charges can only be paid using VCBA funding if they are included in the total cost of the equipment.

INSTALLATION COSTS – Do not include these charges in the cost of the equipment unless they are for setting up the equipment. Building modifications, new electrical outlets, etc., are not allowable costs. Unpacking and testing are allowable costs.

REQUEST FOR REIMBURSEMENT – Send requisition forms (including the prescribed list of equipment) to SCHEV for verification of equipment authorization. Institutions will be reimbursed by the VCBA. The VCBA will not pay vendors directly. Email requests directly to heetf@schev.edu.

SCHEV receives the requisition form, reviews for the request against the authorized equipment list and checks for authorized signatures, among other things. If SCHEV then approves the purchase, it forwards the documentation to the Department of the Treasury for processing. The review ensures that the acquired equipment is authorized and meets the legislative intent of SB45 as determined by SCHEV.

SCHEV maintains a cross-reference system of authorization and approvals for payment. SCHEV uses this information to control approvals to the authorized items for each institution. SCHEV forwards approved purchase documents to Treasury and returns incomplete documents to the institution.

Upon receipt of appropriate documentation (including SCHEV approval for payment), the department of Treasury Trust Accounting staff determines if the request is within allocation limits and reimburses the institution using Cardinal. Unless instructed otherwise, all reimbursements will be recorded to Account 255470, Fund 0300. Alternative instructions are restricted to a single line of Cardinal coding. Year-to-date expenditure information is made available to SCHEV and the institutions.

IV. RELATED ACTIVITIES

A. SUBMISSION OF UNAUTHORIZED ITEMS – SCHEV will return to the institution requests for reimbursement for an unauthorized item. Institutions are required to contact SCHEV's HEETF Coordinator if there are changes or substitutions to their Wish Lists.

B. VCBA BUDGET – The Department of Treasury submits the amounts necessary to pay debt service on the VCBA bonds issued for the HEETF to the Department of Planning and Budget the next fiscal year. The Department of Planning and Budget (DPB) determines the amount to include in the Governor's budget bill for covering debt payments.

C. PAYMENT TRANSFER – DPB initiates the process by transferring the general fund portion of the debt service from the Treasury Board to each institution. The nongeneral fund portion is included in each institution's Educational and General appropriation. DOA processes an expenditure payment from the institutions to the VCBA, for the total lease amount. The VCBA then pays the Trustee.

D. TRADE-INS – Institutions may trade-in prior year "active" ETF purchased equipment without written permission of VCBA, provided: 1) they DO NOT involve current year ETF funding and 2) new equipment replacing the traded-in is treated as ETF equipment with the same lease year and ETF reference, 3) should be one-to-one ETF replacement and 4) that adequate records (e.g., lease year and ETF reference number) of the transaction are maintained which track the new replacement equipment to the original equipment. (Description field 3 may be used to note that the equipment is a replacement item.) Further, any replacement equipment must meet SCHEV policy and cost at least as much as the depreciated value of the original equipment but cannot be lower than \$500. Note:

Replacement equipment DOES NOT have to be identical to the original equipment. (“Active” refers to equipment that is still under the lease obligation)

E. LOST OR STOLEN EQUIPMENT – Lost or stolen items also must be replaced with either the same or different equipment that costs at least as much as the depreciated value of the original equipment. Calculate Net Book Value (NBV) to match the useful life of the lost or stolen equipment (i.e. one or seven years). The replacement value cannot fall below \$500 regardless of the original ETF asset’s NBV. Institutions must maintain a record of such replacements similar to “Trade-Ins,” maintaining the same lease year and ETF reference number for replacement equipment.

F. USE OF OLDER EQUIPMENT – Institutions have the ability to use ETF equipment that has outlived its useful life in programs other than instruction, research and academic support. For example, computers that were purchased originally for lab use by students could now be used for administrative purposes since they exceeded their useful life. If an institution chooses this option, the equipment inventory data must be updated to reflect this change in use. A discipline code of 0000 should be applied in addition to any other appropriate changes (e.g., program, location, etc.). The equipment must be maintained in good working order.

G. EQUIPMENT AUDITS – SCHEV may conduct on-site verification of equipment location and use. Sampling from the institution’s inventory helps ensure meeting the requirements of the Facilities Agreement and SCHEV guidelines.

ATTACHMENT A

Note: Almost all exclusions are policy related, which is under SCHEV's purview. Contact SCHEV's HEETF coordinator if unsure about a particular piece of equipment.

Excluded From Funding From HEETF The Following Items:

In the Following Programs:

a. Library books, films and library materials	All Programs
b. Fixed Library shelving	All Programs
c. Office Accessories (blinds, carpets, file cabinets and similar items)	All Programs
d. Office furniture (desks, chairs, tables and similar items)	All Programs
e. Transportation equipment	All Programs
f. Equipment normally affixed to a building or functional as a part of an operating system of a building	All Programs
g. Climate control and security systems	All Programs
h. General telecommunications equipment	Public Service and Physical Plant
j. Equipment with a useful life of less Than 3 Years for shorter-lived equipment and 7 years for all other equipment	All Programs
k. General applications software (Lotus, Excel, etc.)	All Programs
l. Items costing less than \$500	All Program
m. Used or refurbished equipment	All Programs
n. Fabrications (to build or construct customized equipment)	All Programs

Agency Code: _____

Requisition Number: _____

Date: _____

**VIRGINIA COLLEGE BUILDING AUTHORITY
EDUCATIONAL FACILITIES REVENUE BONDS,
SERIES 2022A EQUIPMENT REQUISITION**
2023 Acquisition Fund

State Treasurer
Richmond, Virginia

Page ____ of ____

Goods or services received on or before 6/30/23: \$ _____

Goods or services received after 6/30/23: \$ _____

On behalf of _____ (the "Institution"), this is to request the transfer of \$ _____ (total for this request) from the 2023 Acquisition Fund established by the Virginia College Building Authority ("VCBA") pursuant to the issuance of its Educational Facilities Revenue Bonds, Series 2023A. I hereby certify that this amount will be used to reimburse the Institution for the cost of equipment: (1) in accordance with the procedures established by the State Council of Higher Education; and, (2) as defined in Chapter 12, Title 23.1, Code of Virginia of 1950, as amended.

I further certify that the corresponding Cardinal vouchers have been submitted to the Department of Accounts' Cardinal system and that payment for the cost of equipment has been made. A list of this equipment is provided as Attachment A.

I understand that the Department of the Treasury will process a Funds Receipt entry to record the reimbursement in Cardinal. Unless alternative instructions are provided, all reimbursements will be recorded to Account 255470, Fund 03000. These amounts will then be appropriately allocated by this Institution by Journal Voucher. Alternative instructions are restricted to a single line of Cardinal coding.
