

Enrollment Projections & Degree Estimates Institutional Briefings

Tod R. Massa

STATE COUNCIL OF HIGHER
EDUCATION FOR VIRGINIA

Authority – Public Institutions

§ 23.1-203.4 Duties of Council generally.

*4. Review and approve or disapprove all enrollment projections proposed by each public institution of higher education. **The Council's projections shall be in numerical terms by level of enrollment and shall be used for budgetary and fiscal planning purposes only.** The Council shall develop estimates of the number of degrees to be awarded by each institution and include those estimates in its reports of enrollment projections. **The student admissions policies for the institutions and their specific programs shall remain the sole responsibility of the individual boards of visitors;** however, all four-year institutions shall adopt dual admissions policies with the community colleges, as required by § 23.1-907.*

The (current) Goals

Award 1.5 Million undergraduate degrees and credentials between 2014-15 and 2029-30.

Established by the SCHEV in 2014 with the intent of making Virginia the "best state for education" and reaching a 70% attainment rate of undergraduate degrees, certificates, and workforce credentials of working age adults.

Total awarded so far:	1,004,970
Total certificates:	165,329
Total associate's degrees:	219,061
Total bachelor's degrees:	620,580
Total Workforce Credential Grant Program (WCGP) Credentials:	53,828

These projections include estimates of 549,484 undergraduate degrees, exclusive of WCGP credentials by 2029-30.

Top Jobs for the 21st Century

Award 100,000 cumulative undergraduate degrees to in-state students between 2010-11 and 2024-25.

Established in [*the Virginia Higher Education Opportunity Act of 2011*](#), the goal to place the Commonwealth among the most highly educated states and countries by awarding 100,000 cumulative additional undergraduate degrees on Virginians from public institutions between 2011 and 2025, accompanied by a comparable percentage increase in privately conferred undergraduate degrees in the Commonwealth over the same period.

Public School Enrollment Projections

Source: Weldon-Cooper Center, <https://www.coopercenter.org/research/where-k-12-enrollment-headed>

VA High School Graduates

- The [Higher Ed Immigration Portal](#), in 2018 there were approximately **5,000 undocumented students** graduating from Virginia high schools annually
- DACA students have decreased from 1,288 in 2019 to 228 in 2024

Application Counts are Misleading

- There were 103,300 unique VA FTIC college applicants to VA four-years
 - 72,688 were recent HS graduates
 - 35,123 submitted one application
 - 37,565 submitted 132,187 applications (avg of 3.5 apps)
- Of those that were not recent HS graduates, 30,612 applicants submitted 51,043 applications

Observations

- **Public four-years project a moderate increase in FTIC (2.5% in-state), but a significantly larger increase in in-state undergraduate enrollment (4.2% headcount, 4.4% FTE)**
- **Private four-years project decreased in-state FTIC (-2.5) and a -5.5% decrease in transfers, combining to make 7% increase in both full-time enrollment and FTE**

Notes continued

- **Public two-years project a 5.6% increase in FTIC (excludes HSDE) and a 3.7% increase in new transfers, with overall increase in FT in-state of 4.1% and 4.4% increase in FTE.**
- **At the sector-level, these are the only projections with mathematical consistency.**

Questions we can't answer with current template

- How much of projected enrollment is high school dual enrollment?
- What percentage of enrollments, by level, are solely distance/online?
- How many seats are actually being used each year?

Answering the Questions

- **There is significant dissatisfaction with my inability to answer the previous questions beyond, "It is not part of the projections."**
- **We propose a set of changes, to implement immediately under the guidance of a Council working group :**
 - **Modify the collection template**
 - **Re-issue with a deadline of October 15**
 - **Provide an update, and if possible, a preview at the October meeting**
 - **Publish the projections by November 15**
 - **Council may choose to take action in a special meeting or in January**

Template Changes

- **Solely remedial students (Line 1) have not been reported in years, replace with HS Dual Enrolled**
- **Add six additional lines under Distance Education to specify the subset that are solely Distance/Online students that never have to come to a campus**

Proposed Row Changes

* Distance and Summer rows excluded here for clarity; we will assume the main body of projections is middle scenario.

Collection Changes

- **Add a "Distance Only" flag to the student-level collections for each term of enrollment.**
- **Ensure the site codes in the course enrollment file include values for each high school or other location where HS dual enrollment is taking place and providing edits to ensure they are consistent with student status**

Discussion Points

- **Rationality of institutional projections**
- **Should the enrollment projection model be modified?**
- **Is the proposed timeline reasonable?**
